BDX Battery Disconnect

The BDX Battery Disconnect Systems are easy-to-install solutions that allow vehicle owners the ability to check battery voltages and perform battery disconnects from a single panel. The operator or owner can be sure the batteries are disconnected when the vehicle is not in use or being stored off-season. The control panel can be conveniently located inside the vehicle where all monitoring and control can be done remote.

The heart of the BDX Battery Disconnect system is our standard latching relay and is capable of carrying heavy starter and auxiliary loads. This sturdy relay is sealed against the environment and is ignition protected. In addition to preventing unwanted battery drain when the vehicle is not in use, the BDX Battery Disconnect may be used during service to reduce the chance of shorts or fire hazards while working on the 12 Volt electrical systems.

Relay Dimensions: 7.0”(H) x 3.72”(L) x 3.72”(W)
 Disconnect Panel: 3.5”(H) x 4.25”(L) x 1”(W)

BATTERY DISCONNECT KITS

Intended for remote disconnect of **either the chassis or auxiliary battery** of a specialty vehicle.

200 Amp Single Disconnect
P/N: 10-01090-002

- (1) Battery Disconnect Panel (00-01090-100)
- (1) Big Boy 12V Battery Guard Relay - 200A (00-00507-012)
- (1) 25' Single Fused Big Boy Harness (11-01090-200)

Intended for remote disconnect of **both chassis and auxiliary batteries** of specialty vehicles with dual batteries.

100 Amp/200 Amp Dual Disconnect Kit
P/N: 10-01090-102

- (1) Universal BCC Switch Panel (00-01090-000)
- (1) Relay-Battery Disconnect - 12V/100 Amp (01-00055-000)
- (1) Big Boy 12 V Battery Guard Relay - 200A (00-00507-012)
- (1) Fused BDX/Big Boy Battery Disconnect Harness (11-01090-002)
